**Robert B. Baron, MD, MS**

Professor of Medicine

Associate Dean for Continuing Medical Education

2023

# Essentials of Primary Care: A Core Curriculum for Ambulatory Practice

Sunday - Friday **July 30 – August 4, 2023**

**Everline Resort & Spa** • North Lake Tahoe, California

## OVERVIEW

Primary care clinicians must be highly skilled in preventive medicine, cardiovascular risk factors, day-to-day clinical problems, chronic disease management, communication skills, and optimal use of diagnostic tests and new medications. Health disparities and the care of vulnerable patients are a central part of our daily practice as we try to maximize quality, safety, equity, and value. Close collaboration with other specialists, inpatient colleagues, and diverse teams of health professionals is essential for the care of our complex patients. In addition to a full discussion of common problems in primary care and preventive medicine, this course will also focus on clinical skills and problem-solving in dermatology, women's health, clinical nutrition, and issues in urgent care. The course will utilize formal lectures, case discussions, practical workshops, an audience response system, questions and answers, a detailed syllabus, and on-demand access to course recordings.

## TARGET AUDIENCE

This course, chaired by Dr. Robert B. Baron and taught by UCSF's best teachers, is designed for practicing internists, family practitioners, advance practice providers, and all other health professionals interested in providing high quality primary care.

## FEES

- \$995** Physicians
- \$845** Advance Practice Providers, Other Health Professionals, and Health Professionals in Training

UCSF
