

Friday, September 13, 2024

7:00 AM	<i>Breakfast</i>	BIG 3
7:00	<i>Registration</i>	Sonoma Valley Room
7:50	Welcome and Course Overview	Edward P. Gerstenfeld, MD, MS, FHRS Gregory M. Marcus, MD, MAS, FHRS Joshua D. Moss, MD, FHRS

AF

AF and AF Ablation

Moderators: Sue Eisenberg, MD, Cara Pellegrini, MD

Sonoma Valley Room

8:00	Role of Autonomics on the Mechanism of AF	Peter Hanna, MD, PhD
8:15	Role of Risk Factors and RFM Modification for Treatment of AF	Gregory M. Marcus, MD, MAS, FHRS
8:30	Early ablation for AF - is sooner better for long term outcome?	Jason G. Andrade, BSc, MD, FRCPC, FHRS
8:45	Is ablation better than antiarrhythmic drugs for maintenance of sinus rhythm? Lessons from CABANA	Douglas L. Packer, MD, FHRS
9:00	Data-driven approaches to ablation of persistent AF, including ETOH VOM ablation	Miguel Valderrabano, MD, PHD
9:15	PFA for treatment of Atrial Fibrillation: hope or hype?	Edward P. Gerstenfeld, MD, MS, FHRS
9:30	Q&A (5 mins)	
9:35	<i>Coffee Break in Exhibit Hall</i>	Big 3

AF, Stroke, and HF Treatment

Moderators: Randall Lee, MD, PhD, Omar Kreidieh, MD

Sonoma Valley Room

9:45	Device Detected AF – Anticoagulate or Not?	Jeffrey S. Healey, MD
10:00	LAA Occlusion Devices – Ready as an Alternative to DOAC?	John Hsu, MD
10:15	Surgical Treatment of AF – When is it Indicated?	Gan Dunnington, MD
10:30	Should surgical occlusion of the LA appendage be performed in all AF patients undergoing cardiac surgery - data from the LAAOS family of trials	Jeffrey S. Healey, MD
10:45	AF ablation in HFrEF: who does NOT benefit?	Omar Kreidieh, MD
11:00	Discussion: Which AF Patients do NOT need anticoagulation?	Drs. Lee, Kreidieh, Hsu, Dunnington, Healey
11:15	<i>Coffee Break in Exhibit Hall</i>	Big 3

Inherited Arrhythmias/SCD

Moderators: Jason Roberts, MD, Vasanth Vedantham, MD, PhD

Sonoma Valley Room

11:30	When is it appropriate to perform genetic testing in patients with atrial and ventricular arrhythmias?	Vasanth Vedantham, MD, PhD
11:45	Calcium Release Deficiency - a novel inherited arrhythmia syndrome	Jason Roberts, MD
12:00 PM	Brugada syndrome: Diagnoses, management and cure	Melvin Scheinman, MD
12:15	Sudden Death Risk prediction - can we do better than EF?	Zian Tseng, MD, MAS
12:30	Debate: Cardiomyopathy without CAD patients with EF<35% should receive an ICD	
	12:30-12:40 Pro: Dr. Stevenson	William Stevenson, MD
	12:40-12:50 Con: Dr. Andrade	Jason G. Andrade, BSc, MD, FRCPC, FHRS
	12:50-1:00 Discussion and wrap up	
1:00	<i>Wine Tasting / Box Lunch to-go</i> <i>Afternoon free to explore Sonoma</i>	Sonoma Valley Patio

Saturday, September 14, 2024

7:00 AM	<i>Breakfast & Exhibits</i>	Big 3
7:50	Welcome and Course Overview	Sonoma Valley Room Edward P. Gerstenfeld, MD, MS, FHRS Gregory M. Marcus, MD, MAS, FHRS Joshua D. Moss, MD, FHRS
Syncope		
<i>Moderators: Gregory Feld, MD, Thomas Dewland, MD</i>		Sonoma Valley Room
8:00	Evaluation and Treatment of Postural Orthostatic Tachycardia Syndrome (POTS)	Cara Pellegrini, MD
8:15	Cardioneural ablation for treatment of vasovagal syncope	Thomas Dewland, MD
8:30	Discussion - Should CNA replace pacing as primary therapy for VVS?	Drs. Feld, Dewland, Pellegrini, Andrade
VT1		
<i>Moderators: Wendy Tzou, MD, FACC, FHRS, MD, Henry Hsia, MD</i>		Sonoma Valley Room
8:45	12-lead ECG localization of ventricular arrhythmias – clues for the clinician	Joshua D. Moss, MD, FHRS
9:00	Autonomic regulation/denervation for treating refractory VT	Olujimi Ajijola, MD, PhD
9:15	Use of cardiac imaging to guide VT ablation	Wendy Tzou, MD, FACC, FHRS
9:30	<i>Coffee Break</i>	Big 3
VT2		
<i>Moderators: Wendy Tzou, MD, FACC, FHRS, MD, Henry Hsia, MD</i>		Sonoma Valley Room
9:40	Ablation of VT from the LV summit: 1/2NS, bipolar or alcohol?	Miguel Valderrabano, MD, PhD
10:10	Management and ablation of polymorphic VT/VF	William Stevenson, MD
10:30	Use of non-invasive therapies for treating VT	Douglas Packer, MD, FHRS
10:50	Panel discussion: What is first line therapy for VT in 2024?	Drs. Tzou, Hsia, Valderrabano, Packer
Pacing		
<i>Moderators: Mihail G. Chelu, MD, PhD, Matthew Cain, MD, FHRS</i>		Sonoma Valley Room
11:10	LBB pacing, techniques and current/new technologies	Mihail G. Chelu, MD, PhD
11:30	Leadless single and dual chamber pacing: indications and limitations	Wendy Tzou, MD, FACC, FHRS
11:50	Role of subq ICD and EV-ICD: equivalent to TV ICD?	Gregory Engel, MD
12:10pm	Debate: LBBB pacing should be primary approach to pacing in EF<35% with wide QRS 12:10-12:20 Pro: Dr. Chelu 12:20-12:30 Con: Dr. Hsia	Mihail G. Chelu, MD, PhD Henry, Hsia, MD
12:30	Wrap Up and Best Abstract Award Winner	
1:00	Box Lunch to-go / Adjourn	
1:30	EP Fellows Symposium
