UCSF Pediatric and Adult Spine Surgery Course

OVERVIEW The UCSF Pediatric and Adult Spine Surgery Course is a three-and-a-half day event emphasizing pioneering trends in pediatric and adult spinal surgery. This course is designed to be interactive with didactic lectures given by leaders in the spine community as well as a hands-on bioskills lab. Participants will review and practice surgical principles and techniques in the treatment of complex spinal disorders. Expert lecturers will describe the state-of-the-art treatment for a variety of Pediatric and Adult Spinal Disorders. Interactive case presentations will allow learners to apply knowledge to improve decision making for complex spine pathology.

TARGET AUDIENCE Surgeons, physicians, nurse practitioners, physician assistants, residents and fellows wanting to broaden their hands-on experience will have the opportunity to improve skills in clinical evaluation, preoperative planning, and surgical techniques to address various pediatric and adult spine pathologies.

FEES • COURSE – MOR22006
