

**37<sup>th</sup> Annual**

Current Issues in Anatomic Pathology 2022:  
**Practical Issues in  
Molecular Testing**

**Friday, November 4, 2022**

Live Virtual Feed, and recorded for later viewing

**Anatoly Urisman, MD, PhD**

*Assistant Professor of Pathology  
UCSF Department of Pathology*

8:10: Practical Issues  
in Molecular Testing of  
Lung Tumors

8:50: Q&A

**Emily Chan, MD, PhD**

*Assistant Professor of Surgical  
Pathology*

9:05 Practical Issues in  
Molecular Testing of  
Kidney Tumors

9:50: Q&A

**Sanjay Kakar, MD**

*Professor of Pathology  
Chief of GI-Hepatobiliary Pathology*

10:25 Practical Issues  
in Molecular Testing of  
Liver Tumors

11:10: Q&A

**Robert Ohgami, MD, PhD**

*Professor of Pathology*

11:25 Practical Issues  
in Molecular Testing of  
Lymphomas

12:10: Q&A
